

Information sheet on the registration and accreditation of the Advanced Lab Course

The Advanced Lab Course is an exam performance (*Prüfungsleistung*) and has to be registered at the examinations office before the lab begins.

The Research Lab Course is a study performance and doesn't need to be registered.

If the Advanced Lab Course and the Research Lab Course are combined, only the Advanced Lab Course has to be registered.

To register the Advanced Lab Course, please submit the first page of this form to the examinations office. After the successful completion of the lab, please submit the second page of this form to the examinations office as well. The achievement will be credited there.

For the accreditation of the Research Lab Course, please hand in the separate form which you can find on the homepage as well and submit it to the examinations office.

If the Advanced Lab Course is done within the Faculty of Chemistry and Pharmacy or the Faculty of Biology, it doesn't have to be approved by a professor from one of the faculties. If the Advanced Lab Course is an external lab, the accreditation has to be approved by a professor from one of the faculties.
