

Fakultät für Chemie und Pharmazie

- Sustainable Materials – Polymer Sciences -

Application form for registration of a master thesis

- Major in “Advanced Macromolecular Materials and Nanostructure Engineering”
- Major in “Macromolecular Engineering and System Integration”
- Major in “Biomaterials and Biosystems”
- Major in “Biobased and Bioinspired Materials”

Ms/Mr _____

Student ID Number: _____

The lab course in Macromolecular Materials and Chemistry has to be completed.

A minimum of 70 ECTS Credit Points has to be accumulated before.

The master thesis is a scientific project, in which the candidate is guided concerning topic, content and methods. It is connected to a particular field of research and it is supposed to be kept simple. The thesis is guided by two supervisors. **One of them must be Professor at the University of Freiburg or Strasbourg (“Referent”).**

The master thesis is supposed to be done at the faculty of chemistry and pharmacy, the faculty of engineering, the faculty of environment and natural resources, the faculty of mathematics and physics or at the University of Strasbourg. Exceptions to this rule must be approved by the examination committee (“Masterprüfungsausschuss”).

Please add the Transcript of records

Master Thesis: _____

date and signature of the professor / supervisor (“Referent”): _____

date and signature of the student: _____

The student is allowed to start the master thesis on (D/M/Y) _____
(to be filled by Professor):

Please give this application form before starting the master thesis to the examination office (do not forget the signature of the professor or supervisor).
